Applicants for NIH training grants, including Career Development Awards (K Awards), individual fellowships (F Grants) and institutional training grants (T Grants), are advised that NIH has revised its standards for training in Responsible Conduct of Research for these programs. Please review Notice NOT-OD-10-019, Update on the Requirement for Instruction in the Responsible Conduct of Research, for specific expectations, which include a combination of didactic instruction and small group discussion.

This Notice applies to new and competing renewal applications beginning January 25, 2010, and to noncompeting renewals due on or after January 1, 2011. For assistance in identifying resources to develop a Responsible Conduct of Research training plan meeting these requirements, please contact Sherrie Settle (sherrie_settle@unc.edu, Ph: 843-5328).
