1. Financial arrangement entered into between the sponsor of this study and the investigator whereby the value of the compensation for conducting the study could be influenced by its outcome. For publicly traded entities: the value of any remuneration received from the entity in the past 12 months plus the current value of any equity interest in the entity exceeds $5,000*, and this financial interest reasonably appears to be related to the investigator’s responsibilities for this study. For purposes of this definition, “remuneration” includes salary and any other payment for services not otherwise identified as salary (e.g., consulting fees, honoraria, paid authorship) and “equity interest” includes any stock, stock option, or other ownership interest as determined through reference to public prices or other measures of fair market value.

   - [ ] Yes
   - [ ] No

4. Any significant equity interest in this study’s sponsor (i.e., any ownership interest, stock options, or other financial interest) whose value cannot be readily determined through reference to public prices. This generally applies to interests in a sponsor that is not a publicly-traded entity.

   - [ ] Yes
   - [ ] No

5. Intellectual property or other proprietary rights and interest (e.g. patents, copyrights, trademarks, licensing agreements) that reasonably appear to be related to the investigator’s responsibilities for this study (e.g. rights/interest in the tested product); includes receipt of income related to such rights and interests.

   - [ ] Yes
   - [ ] No

6. Reimbursed or sponsored travel (i.e., that which is paid on behalf of the investigator and not reimbursed to the investigator so that the exact monetary value may not be readily available) related to the investigator’s responsibilities for this study; provided, however, that this disclosure does not apply to travel that is reimbursed or sponsored by a Federal, state, or local government agency, an institution of higher education as defined at 20 U.S.C.1001(a), an academic teaching hospital, or a research institute that is affiliated with an institution of higher education.

8. Receipt of significant payments of other sorts with a cumulative monetary value of $25,000 or more made by this study’s sponsor to the investigator or their institution to support activities of the investigator exclusive of the costs of conducting this or other clinical studies, (e.g., a grant to fund ongoing research, compensation in the form of equipment or retainers for ongoing consultation or honoraria).

9. An executive, director, or employee of the sponsor of this study.  

   Yes ☐  No ☐

10. For each item marked “Yes,” describe the conflict (including its size and nature) and explain your plan to manage the conflict and minimize its impact on the conduct of this study. **If multiple items were marked “Yes,” reference the item number and provide a separate explanation as to each:**
