1) Your responses to **General Information / Screening Questions** will determine the configuration of your application.

2) You will be presented with a substantially abbreviated application if you indicate that your study:
   - does not constitute research (i.e., "No" response to question #1),
   - does not meet the regulatory definition of human subjects research (i.e., "Yes" response to question #1; and "No" response to both questions #2 and #3).

3) Click the gray bars within the **Item List** to access the constituent sections of each part of the abbreviated “NHSR” (Not Human Subjects Research) application.
1) Your responses to **General Information / Screening Questions** will determine the configuration of your application.

2) You will be presented with the full IRB application, if you indicate that your study:
   - **constitutes research** ("Yes" response to question #1), AND
   - **meets the regulatory definition of human subjects research** ("Yes" response to either question #2 or #3).

3) Click the gray bars within the **Item List** to access the constituent sections of each part of the full application. *(note: a “No” response to screening Question #2 will suppress Part B)*
