2. Brief Summary. Provide a brief non-technical description of the study, which will be used in IRB documentation as a description of the study. reviewers can readily identify the content. PLEASE NOTE: THIS SECTION MAY BE EDITED BY THE IRB FOR CLARITY OR LENGTH. *

Purpose: The purpose of this study is to determine the feasibility, utility, and applicability of an exercise group aimed at outpatients with schizophrenia spectrum disorders. Information obtained from this focus group will inform the development of a future exercise group.

Participants: Participants will be outpatients with a primary diagnosis of schizophrenia spectrum disorder between the ages of 18-60 currently receiving treatment from outpatient clinics associated with UNC Department of Psychiatry Center for Excellence in Community Mental Health and the Farm at Penny Lane and clinicians providing services at these locations. Groups will be run separately for clients and clinicians.
