

IRBIS 5.09.13 Update:

From the Admin Screen, below the buckets, the IRB Review Dates “agenda screen” now includes the ability to add primary and secondary reviewers.

The screenshot shows a dashboard with summary statistics and a filter section. The statistics are as follows:

Renewals:	0
Modifications:	0
NSI (Reportable):	0
PI Responses:	2

Renewals:	4
Modifications:	3
Closures:	0
NSI (R and NR):	0
PI Responses:	5

Below the statistics is a "Filter Chart By IRB:" dropdown menu set to "All".

The "IRB Review Dates (minutes and agenda)" section is highlighted with a red box. It contains:

- Committee: Biomedical A
- Review Date: 07/09/2018
- View Submissions button

The expiration date has been added to the view in addition to the ability to export the table to Excel for additional tracking purposes.

The screenshot shows the "Committee Agenda" screen for Biomedical A. The table below lists IRB entries:

Result	IRB Number	Title	PI	Type	Date Routing Complete	Approval Date	Expiration Date	Review Type	Reviewer	Secondary Reviewer	Review Result	Sponsor
+	17-0723	Marcus COI 10	Hannah, Marcus	Initial	3/15/2017	6/29/2018	7/01/2019	Full Board (Meeting)			Minor Stipulations	Cancer Research Institute
+	18-0062	Marcus PI Response t...	Hannah, Marcus	Initial	2/12/2018			Full Board (Meeting)	Bodner, Anne	Noah, Terry		Cancer Research Institute
+	18-0208	Marcus Withdrawn rol...	Hannah, Marcus	Initial	6/20/2018			Full Board (Meeting)			Minor Stipulations	Cancer Research Institute
+	18-0222	Marcus task 23952 te...	Hannah, Marcus	Initial	7/09/2018			Full Board (Meeting)	Buse, John	Van Le, Linda	Approved	Cancer Research Institute

By clicking the green arrow, the Review Results screen will open directly and the Primary and Secondary Reviewers can be selected or modified.

Additional improvements, such as adding or changing columns, or selecting the reviewers directly from the table window are still under review. Please let me know if you have any recommendations.

A fix has been made to Undetermined for the Expedited Review Checklist. It should now no longer carry forward. During the initial release, a bug prevented this from occurring as requested.

Changes have been made to the External Institutions management to better handle issues where External staff have been removed from the study. The current status of the non-existent external sites, and the related language in the letter templates.

Background database changes have been made regarding how studies are deleted from IRBIS.

Prime Sponsor has been updated to the Options > View Sponsors table. The Prime Sponsor remains only able to be added view the RAMSeS look-up and not via IRBIS directly. Additional changes will likely be made in this area. Related work continues regarding adding the Prime Sponsor to the AIR COI disclosures.
