The New Research Personnel Monthly Report now excludes external staff.

The consent form version date view has been revised:

IRB TEMPLATE Version 2.0 - 12/11/2018 - Do not alter this text box

DELETE THIS AND ALL OTHER INSTRUCTIONS IN ITALICS AND YELLOW HIGHLIGHTS.

The consent form must be written in 2nd person (e.g., You are being asked to take part in a research study about...). Complex terms and concepts must be described or defined in lay language and the consent form overall should be understandable in a language at a level that subjects can comprehend including an explanation of scientific and medical terms (e.g., renal = kidney, cardiac = heart). Define all abbreviations the first time they are used. Also, the page numbering already inserted in the footer should be maintained to show what each page is out of the total number of pages (e.g., 2 of 4).
