

IRBIS changes, effective 6:00 PM, February 7, 2019

IRBIS 5.10.03 Update:

Dashboard Bucket Update

The IRBIS Admin Buckets have been updated to load more quickly and prevent a potential source of system crashes. This will also benefit the new reporting structure.

Exempt Logic Update – bug fix

Category 2 option one now includes the logic to allow an exemption if checked.

Category 2: ([click here for guidance and examples](#))

Does your study involve minors under the age of 18?

Yes No

The research involves the use of one or more of the following

- Educational tests (cognitive, diagnostic, aptitude, achievement).
- Survey procedures.
- Interview procedures
- Observation of public behavior.

If at least ONE of the following criteria are true:

- The information obtained is recorded by the investigator in such a manner that the identity of the human subjects cannot readily be ascertained, directly or through identifiers linked to the subjects.
- The information obtained is recorded by the investigator in such a manner that any disclosure of the participants' responses outside the research would not reasonably place the participants at risk of criminal or civil liability or be damaging to the participants' financial standing, employability, or reputation.
- The information obtained is recorded by the investigator in such a manner that participants can readily be ascertained, directly or through identifiers linked to the participants AND there are appropriate provisions in place to protect subject privacy and confidentiality.

Explain

Study Level Tag – bug fix

When study level tags were being added and later removed, in some cases the database became confused regarding the numbering of which had been used before. This has been fixed.

External Institution COI Policy Hardstop

Hardstop was not working properly to prevent finalization of letters when an External Institution COI policy had not yet been set. This has now been fixed.

eForm Special Characters Update

System now accommodates special characters (e.g. é, ñ) in eForm displays, PDF, and database.
