IRBIS changes, effective 5:30 PM, July 9, 2020.....	1
List of Changes .....	1

### List of Changes

The Sprint contains the following:

- Block Wizards changes from Exempt to Multi-site
- Bug fix for blank Submission Status' display on IRB Study Management screen for Non-Reportable NSIs
- A check to prevent the creation of automated COIs within 6 months (and to send an email to review first instead)
- A nightly scheduled task for OCT containing a report of Initial Approval letters for clinical studies
- Updates to the IRB Training/GCP labels in COI table to CITI HSP Training/ CITI GCP Training
- Updates to the new Deleted Study Documents view
- COI view update to display the Review Process "Revised" as "Staff Review"
- Implement flag hard stop logic on letter screen for Administrative Reviews
