

Inspections 101

Lecture

The Inspections 101 lecture provides in-depth information on laboratory and facility inspections, including inspection types, checklists, typical findings, logs and documentation maintenance, deficiencies, and suggestions for a successful inspection.

Inspections 101 is given monthly **by request** to personnel listed on approved Institutional Animal Care & Use Committee (IACUC) protocols, especially new principal investigators, laboratory animal coordinators, and animal researchers. Laboratories with deficiencies may be required by the IACUC to enroll.

The Office of Animal Care and Use

THE UNIVERSITY
of NORTH CAROLINA
at CHAPEL HILL

Please contact Education & Oversight Coordinator, Keisha Cawley, at kcawley@unc.edu to enroll.
